

***PUBLIC NOTICE
OF PROPOSED ACTION***

The Administrator, Division of Environmental Protection, Carson City, Nevada is issuing the following notice of proposed action under the Nevada Revised Statutes. The Administrator has received a complete application for a modification of water pollution control discharge permit #NEV2000500 from the following applicant:

Lyon County Utilities District
Rolling "A" Water Reclamation Facility
P. O. Box 1699
Dayton, Nevada 89403

The applicant proposes to increase the flow for the activated sludge mechanical wastewater treatment plant which serves as a regional plant for the Dayton Valley service area including Canyon Estates, Stanton Park, Rolling "A" and other developments. The plant is located south of both U.S. Highway 50 and Ft. Churchill Road at 499 River Road, Dayton, Nevada. The proposed permit allows an increase in flows to 0.250 million gallons a day for disposal of treated effluent in rapid infiltration basins at the facility, and for approved reuse for irrigation, dust control and construction uses.

On the basis of preliminary review of the requirements of the Nevada Revised Statutes (NRS) as amended, and implementing regulations, the Administrator proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions.

Persons wishing to comment upon or object to the proposed determinations by the Administrator regarding permit issuance, or request a hearing pursuant to the Nevada Administrative Code, Water Pollution Control, should submit their comments or request, in writing, within thirty (30) days of the date of newspaper publication, by November TBA either in person or by mail to:

DCNR, Division of Environmental Protection
Bureau of Water Pollution Control
333 West Nye Lane
Carson City, Nevada 89706-0851

The request must be filed within the comment period and must indicate the interest of the person filing the request and the reasons why a hearing is warranted. All comments or objections received within the thirty (30) day period will be considered in the formulation of final determinations regarding the application. If written comments indicate a significant degree of public interest in the proposed permit, the Administrator shall hold a public hearing. A public notice of such hearing will be issued not less than thirty (30) days prior to the hearing date.

If no hearing is held and the determinations of the Administrator are substantially changed from the tentative determinations, the Administrator will give public notice of the revised determinations. Additional comments and objections will be considered at that time.

The application, proposed permit, comments received, and other information are on file and may be copied or copies may be obtained by writing to the above address or by calling Icyll Mulligan, Bureau of Water Pollution Control at 775.687.9432 or by FAX at 775.687.4694.

Please bring the foregoing notice to the attention of all persons whom you know would be interested in this matter.
